FIFTH THIRD BANK

**We
Demand
Respect**

5/3 Bank, who by the way in 2015 was found by the Consumer Financial Protection Bureau to have discriminated against African American and Hispanic consumers by charging higher interest rates. Now, has under the guise of safety placed “jail like” double doors and metal detectors in African American communities even though statistics show most bank robberies take place in downtown or suburban locations. These “jail like” entrances are both discriminatory and disrespectful, and have caused a disabled person to be caught in the entranceway.

These “jail like” doors are at their branches located at 8140 S. Ashland, 1600 E. 79th Street, and 11850 S. Marshfield. However, they are not in their branch located at 5501 N. Ashland, even though it has been robbed, not at their branch located at 222 S. Riverside, which is in downtown Chicago even though it has been robbed, not at their branch at 29 W. Division even though it has been robbed, not at the branch located at 837 W. North Ave. even though it has been robbed, not at the 640 W. Diversey, even though it has been robbed, not at their branch in Lake Forest, even though it has been robbed, not at their branch at 57 E. Randolph even though it has been robbed twice, not at their branch at 1420 E. 53rd Street in Hyde Park, even though it has been robbed twice, not at their branch at 601 S. Clark, even though it has been robbed twice, and not at

their branch at 1 S. Dearborn even though it has been robbed three times.

5/3, stop your discriminatory practices! Either put your "jail like" doors in all you branches or take them out of ours.

Call 5/3 Bank at 312-704-7300 and tell them to remove the "jail like" doors!
